

SIKA ACOUBOND SYSTEM ADHESIVE & SOUND DAMPENING FOR WOOD FLOORING

The Sika AcouBond System incorporates Direct Bond Technology with acoustic performance. Consists of SikaLayer 03, a 1/8" or 3 mm proprietary specially slotted foam mat, and the SikaBond T53, permanently elastic, super strong, sound dampening adhesive that forms a tenacious bond to wood flooring, plywood subfloors, concrete and other common subfloor materials.
