

SIKA LEVEL 225 SELF-LEVELING UNDERLAYMENT

Sika Level 225 is a one-component, durable and versatile cementitious underlayment for interior concrete and cementitious substrates. It can be applied manually or by pump to produce a self-smoothing, rapid-setting, flat and economical substrate prior to the application of a final floor finish. Typical application thickness is 1/16" – 1 1/4" or 1.5mm – 31 mm.
